

To whom this may concern:

RE: PBT chemicals

We understand that TSCA has required EPA to limit or prohibit the manufacture, processing or distribution of:

- **Decabromodiphenyl ether (DecaBDE):** A flame retardant in plastic enclosures for televisions, computers, audio and video equipment, textiles and upholstered articles, wire and cables for communication and electronic equipment, and other applications.
- **Phenol, isopropylated phosphate (3:1) (PIP (3:1)):** A plasticizer, a flame retardant, an anti-wear additive, or an anti-compressibility additive in hydraulic fluid, lubricating oils, lubricants and greases, various industrial coatings, adhesives, sealants, and plastic articles.
- **2,4,6-tris(tert-butyl) phenol (2,4,6-TTBP):** An intermediate/reactant in processing, and is incorporated into formulations destined for fuel and fuel-related additives;
- **Hexachlorobutadiene (HCBD):** A chemical used as a halogenated aliphatic hydrocarbon that is produced as a byproduct during the manufacture of chlorinated hydrocarbons.
- **Pentachlorothiophenol (PCTP):** A chemical used to make rubber more pliable in industrial uses.

Three-Sixty Solutions can confirm that to the best of our knowledge, none of the foams we supply in the *Solu-Cell* family of foams contain any these chemicals.

Please feel free to contact us if you need any other information.

Your sincerely,
