To Whom This May Concern:

RE: RoHS Compliance

This is to confirm that our Solu-Cell series of Closed Cell Chemically Cross-Linked Polyethylene and Ethyl Vinyl Acetate (XLPE and EVA) Non Flame Retardant Foam is in compliance with current RoHS (Restriction of the use of Hazardous Substances) Standards.

This is legislation was enacted by the European Union (EU) and adopted by many other countries. The material provided by Three-Sixty Solutions, Inc. is a product that contains no more than .01% if any of Cadmium, Mercury, Lead, Hexavalent Chromium and Polybrominated Biphenyls. RoHS was updated again to include the 4 phthalates (2015/863/EU, otherwise known as RoHS 3) amended on 4th June 2015.

Should you have any questions regarding this matter, please contact me on 585-768-2233.

Sincerely,

A handwritten signature in blue ink, appearing to read "Russell K. Western", with a long horizontal flourish extending to the right.

Russell K. Western
