

Solu-cell XLPE & EVA FOAMS

Engineered For

- Packaging
- Automotive
- Aerospace
- Marine
- Consumer Goods
- Industrial Cushioning
- Medical

Benefits

- Class A Surface
- FMVSS302*
- REACH/RoHS*
- AAS9135*
- High Quality

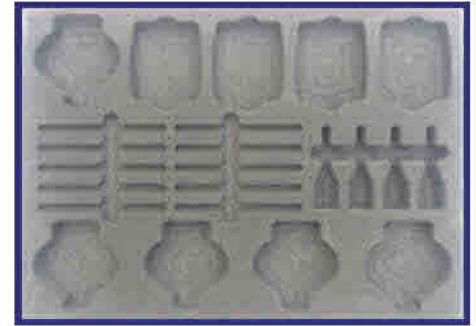

Flame Retardant (FR)

- CAL117*
- FAR25.853B*
- UL94 HF1, HF2, HBF*

Materials

- Polyethylene (P)
- EVA (E)
- Co-Poly (C)

* - Compliant

Densities

1.5#	2#	3#	4#	6#	9#
------	----	----	----	----	----

Bun Sizes

4"x48"x96" (S)	4"x48"x72" (D)
4"x40"x80" (M)	4"x60"x96" (W) 4"x72"x96" (H)

Colors

White (80)	Grey (91)	Charcoal (93)	Black (10)
Yellow (40)	Blue (21)	Red (55)	Custom

The Solu-Cell family of foams is XLPE and EVA foam that is manufactured in bun stock. Our foams are designed and engineered to meet our market and customer specifications. It also meets our strict quality standards.

Gained from many years of experience as a foam manufacturer, *Three-Sixty Solutions* has the expertise to engineer custom foaming solutions. Whether a customized color, polymer blend or specific physical property, we can spearhead the engineering process from concept to delivery.

With ownership and control of the product line and supply chain, we can also develop a customized JIT program specific to your needs and deliver materials to you with short notice and on budget.

Your Solution for All Foam Needs and Medical Materials
